Yesterday afternoon, the first dose of the vaccine candidate Abdala arrived in the municipality of Yateras, which in this first stage will be applied to workers in the health sector, as well as to medical students.

Faustino Harritte González Municipal Director of Health stated that the workers have shown their willingness to be vaccinated in this phase of implementation, since they trust the safety of this vaccine candidate proven with great effectiveness and thanked the effort that the Revolution makes day by day to guarantee the health of Cubans and especially at this time that it is so badly needed to prevent the contagion and spread of Covid 19 from increasing.

In greeting to the day of the Nursing, the prodigious hand of Daisy Lago was the first to receive the vaccine in the Palenque area. With humble gesture of gratitude to the personnel who have most been on the front line of combat against Covid19.
