Taking into account the complex epidemiological situation in the country, characterized by high levels of transmission of the disease in this phase of community transmission due to the increasing behavior of positive cases diagnosed daily and the circulation of several highly contagious virus strains, and the need to reduce the mobility of the population, we propose the following measures:

The PNR control points and health filters will not allow the passage of means of transport with travelers to our territory, without authorizations and legally approved documents, if any infraction is detected, they will be returned to the province of origin, applying the legal - criminal measures corresponding, taking into account the cases that warrant it.

Increase prevention and confrontation actions with the MININT working groups, in the health areas of the municipality, which will allow to identify, prevent, warn and fine people and vehicle fleet that violate the restriction measures from 3:00 p.m. hours and that are not duly justified.

The specialty of minors will increase tours of parks, sports areas, developing prevention and confrontation actions in places that detect minors and young people violating restriction measures, exercising preventive and confrontational prophylactic work, applying measures to legal representatives corresponding criminal law.

In conjunction with the DIS inspectors, Increase the routes in regular hours and at the level of the popular councils with the highest incidence and indiscipline related to mobility and non-compliance with health protocols, taking actions with the application of fines through Decree 31.

The means of transport that are detected violating the restriction measures and are not duly authorized will be transferred to the

transport warehouse, applying the corresponding measures.

Together with the TRD and CIMEX Chains, the confrontation group destined for the operational assurance of the LCC, identification of users, with the purpose of restricting purchases.

Together with the DIS inspectors, employ and confront violations committed by pedestrians and drivers of means of transport, mainly in the historic center of the city.

Increase the surveillance and patrol service at the level of popular councils, which will allow to maintain order and citizen tranquility, as well as the emergency call through service 106 of the PNR (emergency call of the population), applying criminal legal measures in the corresponding cases.

Use Video protection in order to detect and direct the confrontation with patrol cars and traffic motorcycles to the violations that are detected on the public highway and areas of responsibility of this system or protected city.

Maintain the reinforcement with designated heads of the MININT, members of the MININT system and means of the PNR, to maintain the stability of the operational situation.

Carry out during the hours of the operating day in the areas identified as vulnerable points for the commission of illegalities that contribute to the agglomeration of people on public roads.

Strengthen the work of the LCC operation groups in coordination with the PNR located at the TRD, CIMEX points of sale and points of sale.

The sale of equipment in the MLC stores will be until 2:00 p.m. and for the sale of food, 50 tickets will be awarded per establishment using the "APK Portero" controlled by the MININT.

Reduce the working day until 12.00 p.m. for all administrative entities.

Keep health services, funeral services, crematorium, flower shop, water supply, electricity, fuel distribution and communications working 24 hours a day.

Maintain units of pharmaceutical services working in shifts staggered from 7:00 am to 7:00 pm.

The retail sales units (warehouses, bread sales, CIMEX stores, Caribe Stores and liquefied gas sales) will provide services until 2.00 pm. For the production of food and other necessary goods, the administrative directorates of these entities will organize the

production schedule based on the existence of raw materials.

Retail sales entities will use Messengers to avoid concentration of people in the units.

The Self-Employed Workers of the Gastronomic Services activity of Restaurants and cafeterias will continue to provide home delivery services and take away sales.

Carry out the operations starting at 3 in the afternoon with the itinerary of the bus destined for these purposes where the DIS, the PNR and other imposing agencies participate to verify compliance by the population with the movement restriction.

Locate teams of UET and DIS inspectors in the main arteries to control compliance with the circulation measures established for means of transport.

Activate a command post in each defined area for the population to voice their concerns and for the working groups to face the identified incidence.

Night operations will be carried out by the stores in MLC to verify the absence of people who queue from the hours of the night and early morning.

Establish a command post based in the Municipal People's Power receive the incidents and concerns of the population.

Carry out the daily analysis (11:00 a.m.) of the operation of the groups and the results obtained in the operation, with the participation of the heads of areas and the depository bodies.

Only to authorize means of transport to circulate for the following reasons:

Depending on the economy

Transfer of patients

Death

Visits to municipalities must be extended until conditions permit, they will be limited for reasons previously consulted and approved by the temporary groups of the territories.

Increase the effectiveness of Operation LCC in conjunction with the CIM

PREVENTION AND ADDRESSING MEASURES TO ACHIEVE RESTRICTION OR MOBILITY IN YATERAS
